Comments on the Results

1. In the year under review Shoprite increased revenue by 6.3% to R19,597 billion despite the fact that expenditure by consumers in the lower income groups decreased. Under-performing stores were scaled down or closed in our endeavour to achieve acceptable returns.
2. Operating profit of R414,8 million was achieved, representing an increase of 27.3% as compared with the previous year. This increase was due to better utilisation of available space, efficient cost control, and a further reduction in stock shrinkage.
3. Exceptional items comprise mainly the following:
 - The amortisation of negative goodwill in terms of the group's new accounting policy (see below), as already announced in the December 2000 results, which amounted to R65,3 million for the period under review; and
 - A provision of R127,4 million for the possible irrecoverability of participation loans in the group's Share Incentive Scheme. In view of the current volatility of share prices and the poor rating of retail shares in particular, the suitability of this scheme as an incentive mechanism for staff is being reconsidered.
4. As from the end of the 2000 financial year the Share Incentive Scheme has been financed by outside institutions. Consequently the composition of the net financing income as compared with the previous year has changed.
5. Taxation includes an amount of R57,2 million (2000: R66,4 million), mainly representing the amortisation of the deferred tax asset. The tax actually payable is mainly secondary tax on companies (STC) and tax payable by partnership ventures in the group.
6. The dispute between the group and SAB regarding the purchase of OK Bazaars has not yet been settled.

Prospects

As a result of the composition of Shoprite's client base the group is well positioned to benefit from an improvement in the economic climate.

Dividend

The Board has declared a final dividend of 11 cents, bringing the total distribution for the year to 20,5 cents per share (2000: 18 cents). The final dividend will be payable on 21 September 2001 to shareholders registered in the company's register of shareholders at the close of business on 7 September 2001.

Accountability

The accounting policies used in preparing the annual financial statements is in accordance with that for the year ended 30 June 2000, except in the case of the undermentioned, and conform with the Statements of Generally Accepted Accounting Practice in South Africa.

The group has changed its accounting policy and now brings to account negative goodwill and deferred tax assets. The comparative figures have been restated to reflect the effect of the change. This change has no effect on the net profit attributable to ordinary shareholders, but only on the calculation of headline earnings.

By order of the Board

C H Wiese
Chairman

J W Basson
Managing director
