

## **Langa learners pool together to clean up community**

The Langa Sports Complex was a hive of activity last Saturday (6 April 2019) when more than 100 learners participated in a community cleanup event hosted by Shoprite and the [Vusa Rugby and Learning Academy](#).

“We were greatly encouraged by the turn-out. It was a great opportunity to show the learners that one is never too young to give back to your community, and a staggering 231kg of recyclable material was collected during the event,” says Makabongwe Kahla, head coach of Vusa, which aims to bring about social upliftment for under-privileged children through sports and academics.

As with all the cleanup events which Shoprite supports, recycling is key. Thus all recyclable materials was collected by recycler [Packa-Ching](#), ensuring that as little waste as possible ended up in landfills.

Anyone interested in hosting a cleanup in their community are encouraged to visit [www.actforchange.africa](http://www.actforchange.africa) for more information.
