

## Shoprite and Checkers have 45% more toys in stock this festive season

Despite global supply chain constraints, the Shoprite Group and largest supermarket toy retailer in South Africa, has managed to secure 45% more stock than last year, ensuring consumers of a wide range of the most affordable toys this festive season.

The Group's supermarkets will be fully stocked as it ordered well in advance, avoiding the current situation where skyrocketing container prices are impacting toy prices and availability.

Both Shoprite and Checkers supermarkets will also once again beat any toy price by 10% if a competitor store advertises the identical item at a lower price.

Some of the toys available at Shoprite and Checkers supermarkets this festive season include:
